

Manual para criar uma branch no projeto

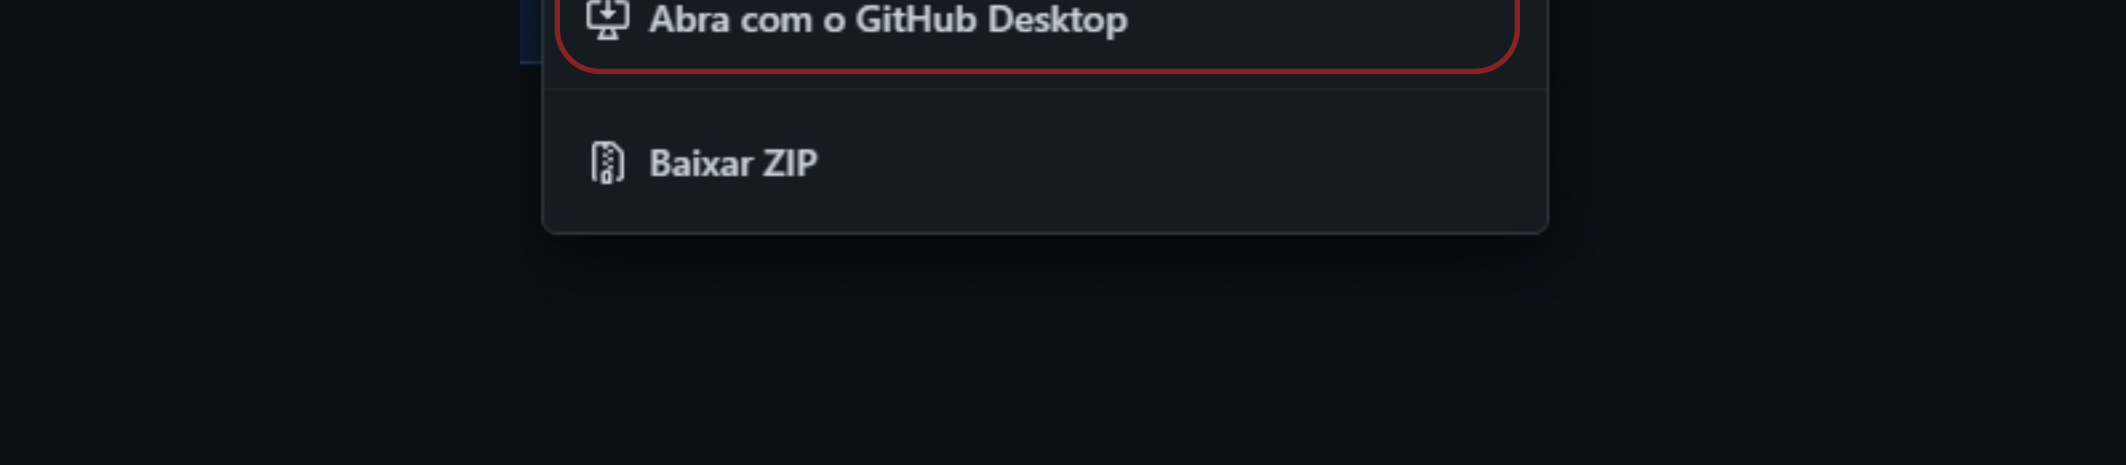

1 - Entre no meu Github e entre na pasta da NLW

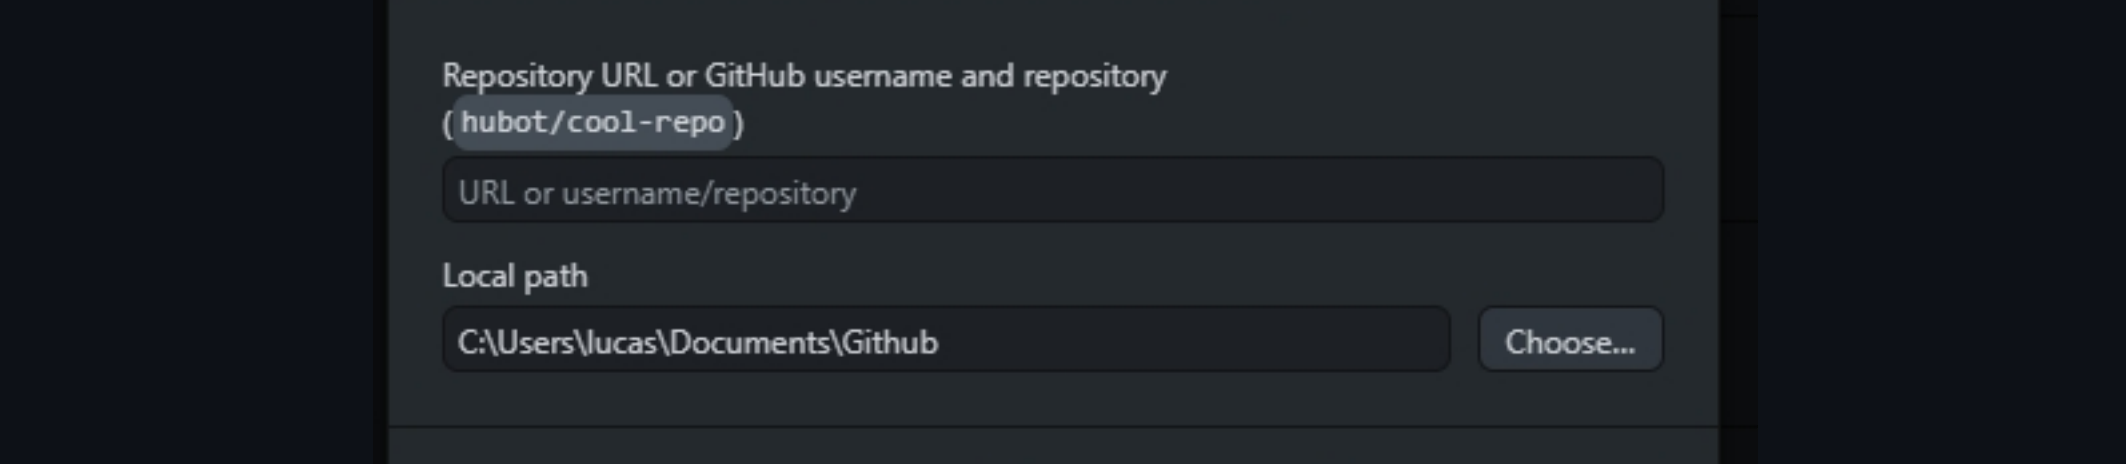

2 - Clique em "código"

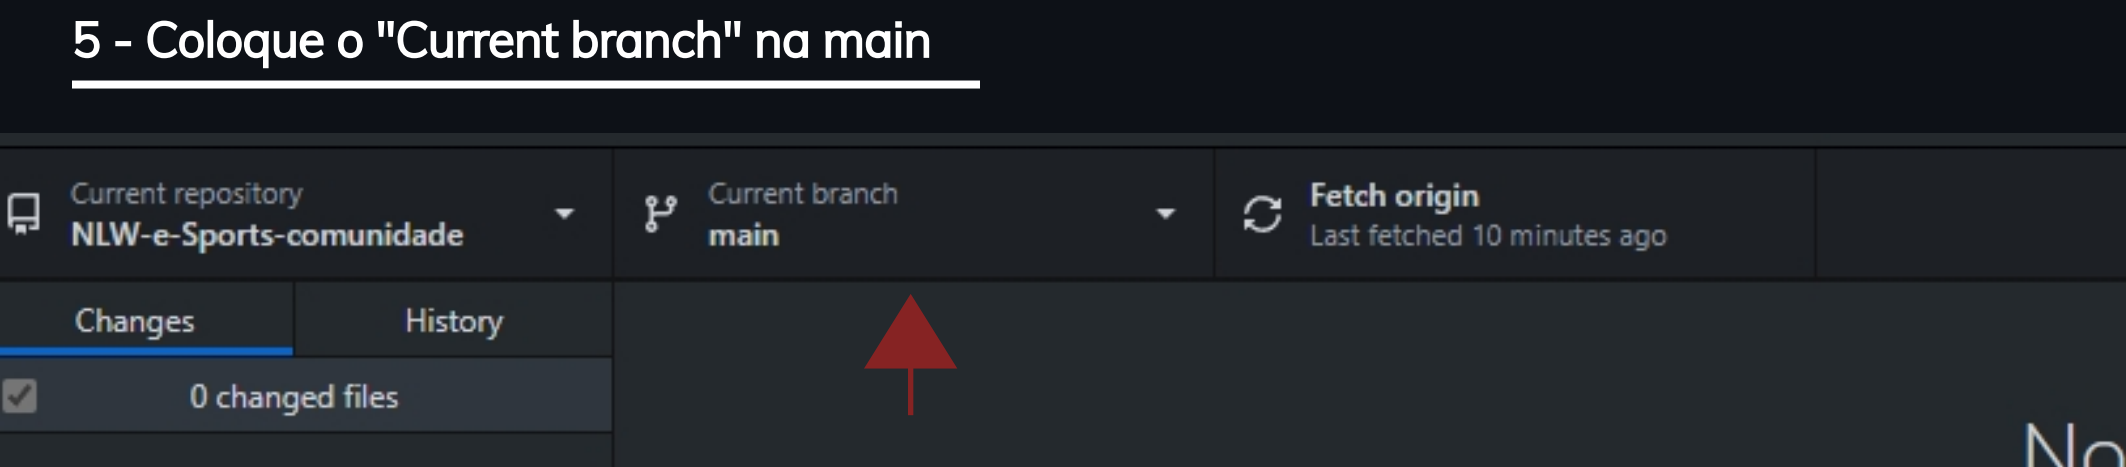

3 - Clique em "Abra com o GitHub Desktop"

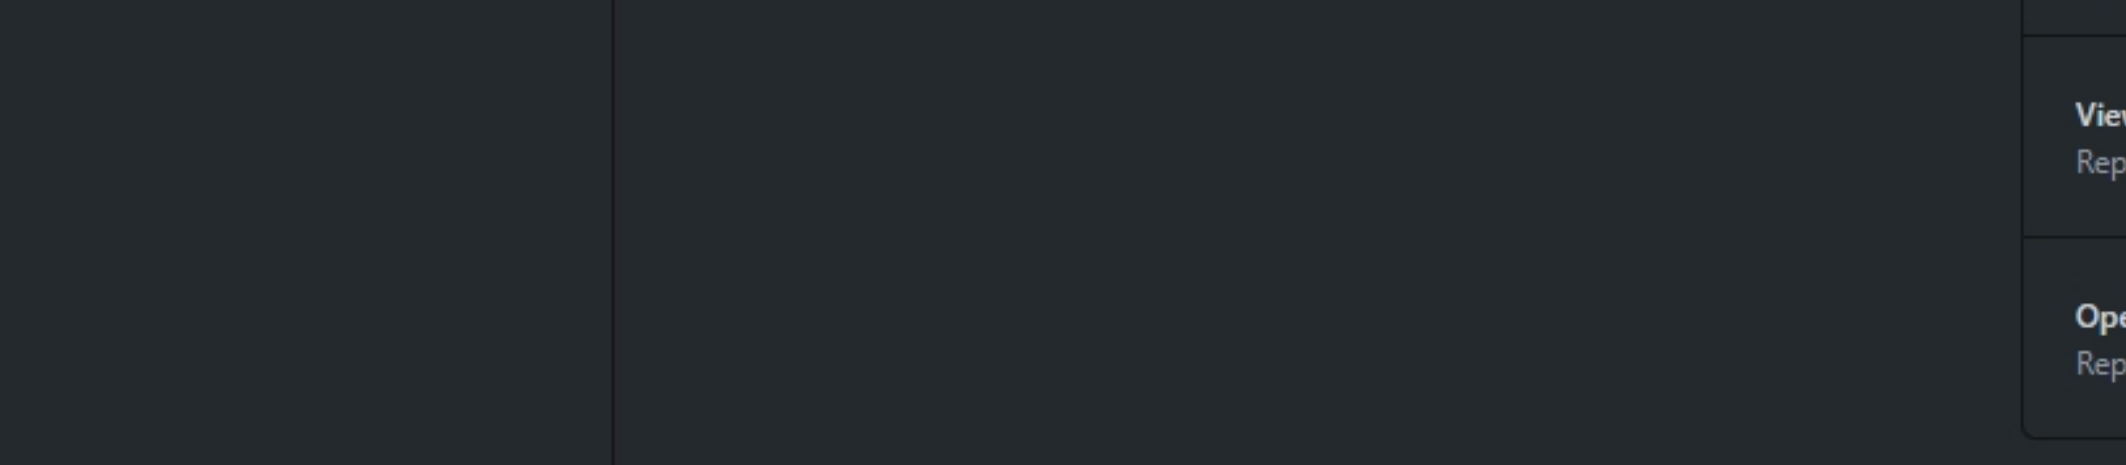

4 - Clique em "Clone"

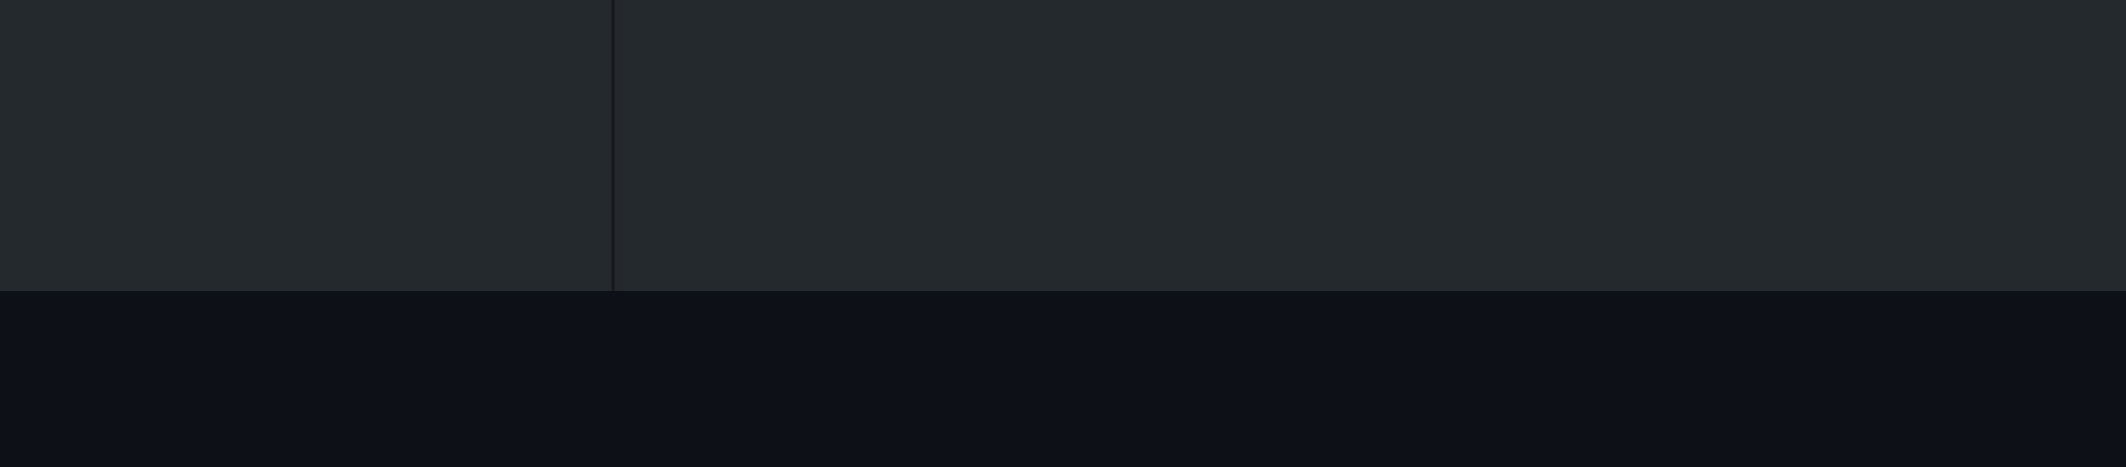

5 - Coloque o "Current branch" na main

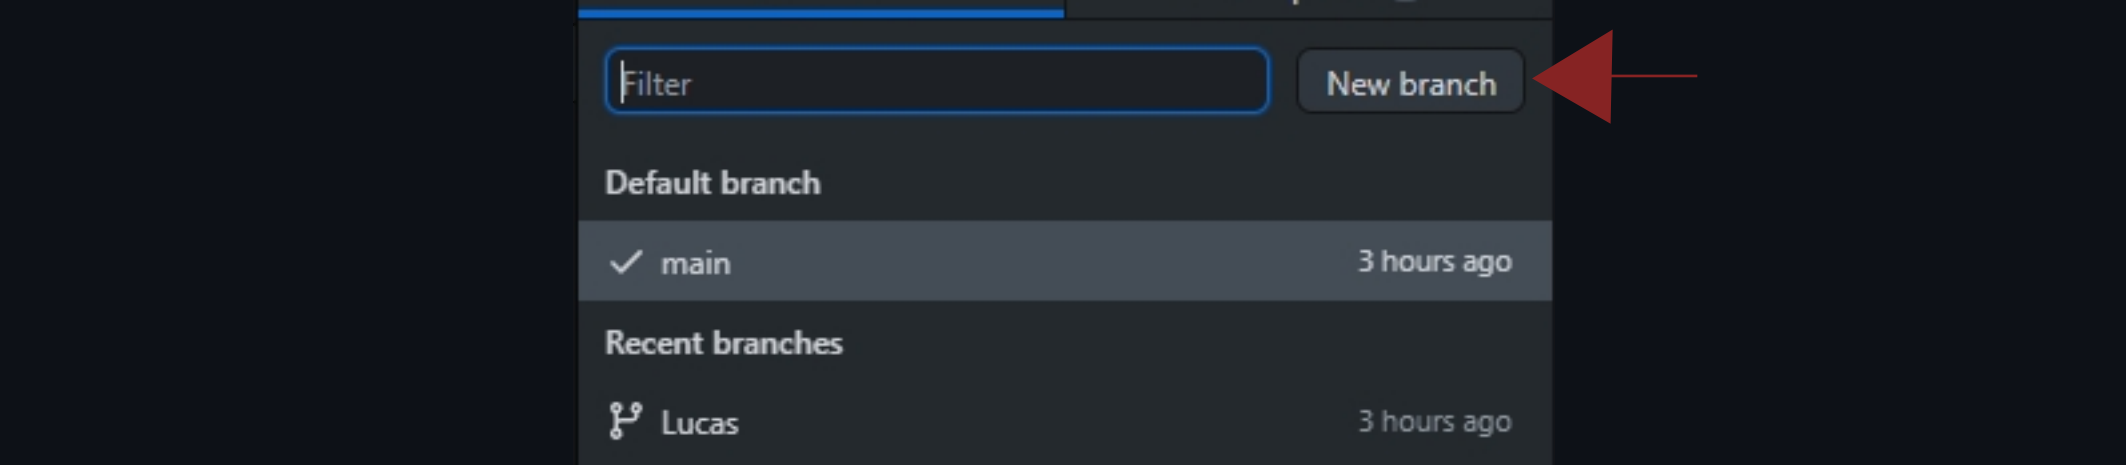

6 - Clique em "Current Branch" e depois em New branch

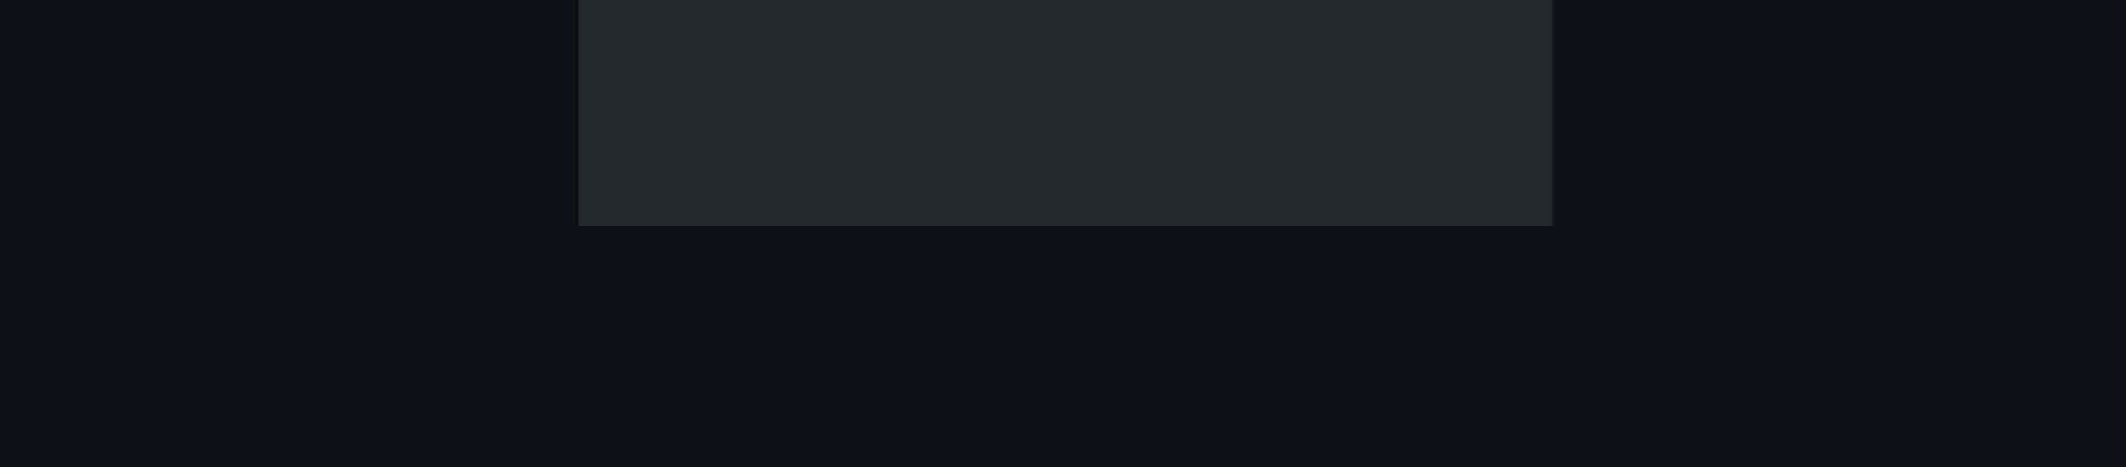

7 - coloque seu nome e depois clique em create branch

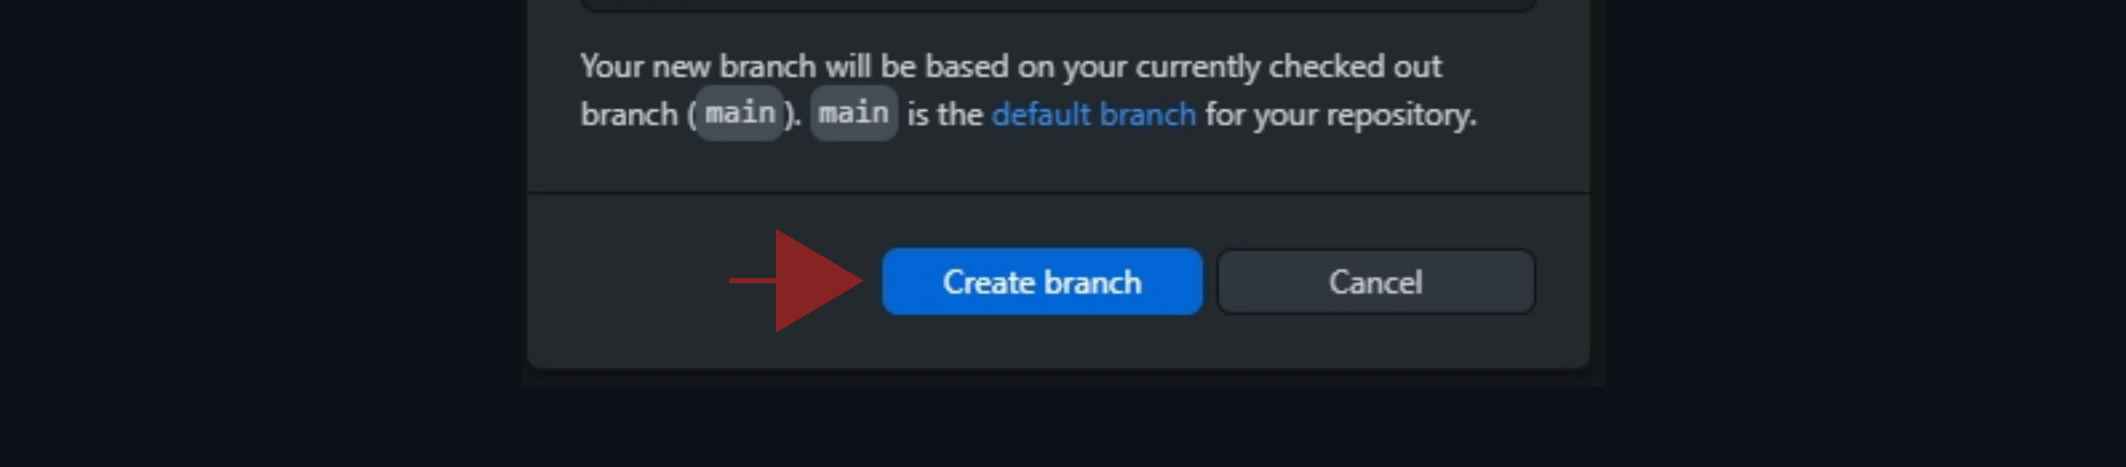

8 - Clique em "Open in Visual Studio Code" e faça seu projeto

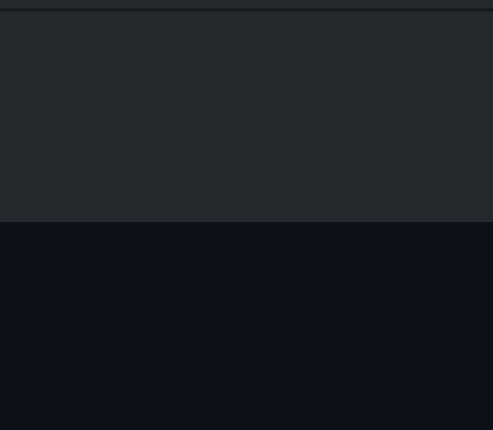

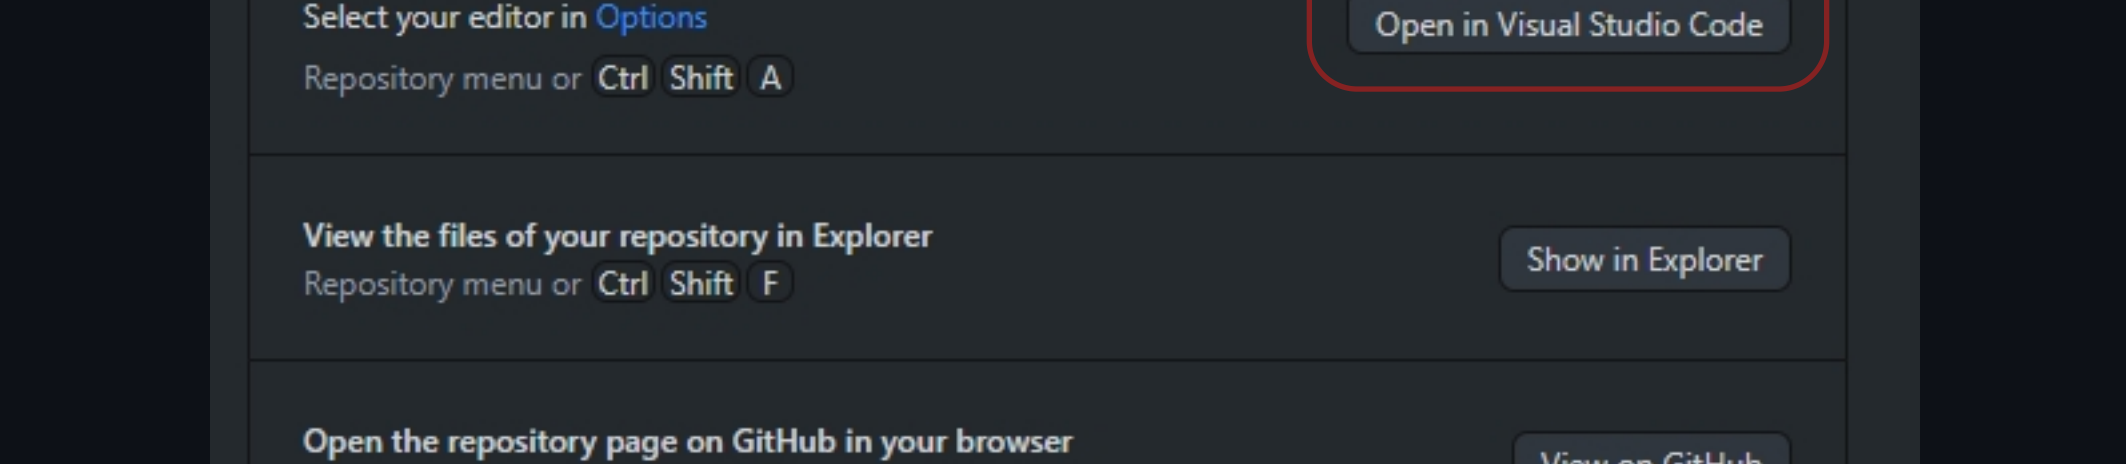

9 - Crie uma pasta em "Comunidade" com o seu nome e faça seu projeto

10 - Depois de fazer seu projeto, escreva seu título, a descrição da mudança e deia commit

11 - Depois clique em Push

É isso, qualquer coisa me comunique no Discord
